## INVICORATING CORDIAL

POR GENITAL DEBILITY, IMPOTENCY, INCONTIwhich has attended this invaluable med tonishing success which has attended this invaluable medi-cine, for Lous of Muscular Energy, Physical Lassitude, and General Prostration, or any of the consequences of youthfu-indiscretion, or indulgence of the passion in riper years, renny of the consequences of youthfu-se of the passion in riper years, ren-ble preparation ever discovered indiscretion, or indulgence of the passion in riper years, ren-ders it the most valuable preparation ever discovered. In fact, as a remedy for the above complaints, it stands un-rivalled and alone. There is no other reliable remedy, or any that has authentically received the sanction of the Medical Faculty. The WONDERFUL VEGETABLE PRO-DUCTION of which this medicine is composed has been tested, and its virtues proclaimed, by the highest names of the faculty of London, Paris, and the chief cities of Europe the faculty of London, Paris, and the chief cities of Europe, as well as by eminent Physicians in this country. It is the only infallible remedy for NERVOUS, HEAD, and MIND COMPLAINTS—the mental physic so long sought for and never before found—the only agent that can administer to MIND DISEARES. It will remove all nervous affections, DEFRESSION, EXCITEMENT, incapacity to study or business, loss of MEMORY, CONFUSION, thoughts of self-destruction, fear of insanity, &c. It will restore the same destruction, fear of insanity, &c. It will restore the appetite, renew the health of those who have destroyed it by Sensual Excesses or evil practices. It has been said by some that these disorders, emissions, &c., were incurable. This, however, is not the fact.

DR. MORSE'S INVIGORATING CORDIAL has cured and is constantly curing, these complaints—relieving the mental and bodily incapacity of the unfortunate sufferer as the following testimony of the names received will conclu-

ments and odely incapacity of the unfortunate surfeers, athe following testimony of the names received will conclusively show:

Dr. Woodward, of ——, Massachusetts Insane Hospital, writes of one of his patients being cured by using this Cordial thus: "It gives me pleasure to inform you that one of my patients, while in Boston, procured some of your Cordial. He tells me that he has not had a single emission since he commended taking it, while before he had two or three a week. When he applied to me," says Dr. W., "I thought't hardly possible for him ever to regath his full strength. I prescribed the usual medicine used in those cases in the hospital, but they had no effect. In the mean time he purchased some of your Cordial, which has effected a cure I am sure no other medicine would. I shall ever recommend it, whenever an opportunity occurs."

The nature of the maladies relieved by this Cordina are generally such as to leave the publication of certificates of cures out of the question. The proprietor could produce a host of the most conclusive testimony to show that the great reputation it enjoys was not accidentally obtained, but is firmly based upon its positive and apparently miraculous virtues. In all directions are to be found the happy parents of healthy offsprings, who would not have been so but for this extraordinary preparation. And it is equally potent for many diseases for which it is recommended.

THE MEDICAL JOURNALS

have not, in a single instance that has been authenticated, given their sanction to any other preparation for the above complaints. It has, in many violent and desperate cases, effected radical cures, after patients had been abandoned, and their condition pronounced hopeless by medical practitioners of high professional character.

DR. JOHNSTON.

Member of the Royal College of Surgeons, London, Graduate from one of the most eminent Colleges of the United States, and the greater part of whose life has been spent in the Hospitals of London, Paris, Philadelphia, and elsewhere, has effected some of the most astonishing cures that were ever known. Many troubled with ringing in the cars and head when asleep, great nervousness, being slavmed at sudden sounds, and bashfulness, with frequent blushing, attended sometimes with derangement of mind, were cured immediately.

TAKE PARTICULAR NOTICE.

TAKE PARTICULAR NOTICE. Dr. J. addresses all those who have injured themselves by private and improper indulgences, that secret and solitary habit, which ruin both body and mind, unfitting them for

habit, which ruin both body and mind, unfitting them for either business or society.

These are some of the sad and melancholy effects produced by early habits of youth, viz: Weakness of the Back and Limbe, Pains in the Head, Dimness of Sight, Loss of Muscular Power, Palpitation of the Heart, Dyspepsia, Nervous Irritability, Derangement of the Digestive Functions, General bebility, Symptoms of Consumption, &c., &c. mentally.—The fearful effects on the mind are much to be dreaded. Loss of Memory, Confusion of Ideas, Depression of Spirits, Evil Forebodings, Aversion of Society, Self Distrust, Love of Solitude, Timidity, &c., are some of the evils produced.

duced.

NERVOUS DEBILITY.

Weakness of the system, Nervous Debility and premature decay generally arise from the destructive habit of youth, that solitary practice so fatal to the healthful existence of man, and it is the young who are most apt to become its Victims, from an ignorance of the dangers to which they subject themselves. Parents and Guardians are often missled with respect to the cause or source of disease in their sons and wards. Alas! how often do they ascribe to other causes the wasting of the frame, Palpitation of the Heart, Dyspepsia, Indigestion, derangement of the Nervous System. Cough, and Symptoms of Consumption; also those serious hental effects, such as loss of Memory. Depression of Spirits, or peculiar fits of Melancholy, when the truth is, they have been caused by indulging in Perniclous but alluring practices, destructive to both Body and Mind. Thus are swept from existence thousands who might have been of use to Society. NERVOUS DEBILITY.

their Country, a pleasure to their friends, and ornaments to Society.

DR. JOHNSTON'S INVIGORATING REMEDY FOR ORGANIC WEAKNESS.

This grand and important Remedy has restored strength and vigor to thousands of the most debilitated individuals, many who had lost all hopes, and been abandoned to die. By its complete invigoration of the Nervous System, the whole faculties become restored to their proper power and functions, and the fallen fabric of life is raised up to beauty, consistency and duration, upon the ruins of an emaciated and premature decline, to sound and pristine health. Oh, how happy have hundreds of misguided youths been made, who have been suddenly restored to health from the devastations of those terrific maladies which result from indiscretion! Such persons, before contemplating

MARRIAGE,
should reflect that a sound mind and bedy are the most; snould renect that a sound mind and only are the most necessary requisites to promote connubial happiness. Let no false delicacy prevent you, but

TO STRANGERS.

The many thousands cured at this institution within the last ten years, and the numerous important Surgical Operations performed by Dr. J., witnessed by the Reporters of the papers and many other persons, notices of which have appeared again and again before the public, is a sufficient guaranty that the sillicted will find a skilful and honorable physician.

guaranty that the afflicted will find a skilful and honorable physician.

TAKE NOTICE.

It is with the greatest reluctance that Dr. Johnston per mits his card to appear before the public, deeming it unprofessional for a physician to advertise; but unless he did so the afflicted, especially strangers, could not fail to fail into the hands of those imprudent, boasting impostors—individuals destitute of knowledge, name, and character—pedlars, shoemakers, mechanics, &c., advertising themselves as physicians; ignorant quacks, who keep you trifling month after month, as long as possible, and in despair leave you with ruined health to sigh over your galling disappointment. It is this motive alone that induces Dr. J. to advertise, for healms can cure you. To those unacquainted with his reputation he deems it necessary to say, that his credentials or diplomas always hang in his Office.

There was a little archer, and his name was Love, And he died long ago, long ago; He had a little palace in the bright clouds above.

He'll shoot no more, the sweet boy, Love-He's gone where the true lovers go. A pleasing litle fellow was this blind boy, Love-For he lost both his eyes long ago— And his charlot was drawn by a pair of turtle-doves For he never liked a glitter and a show.

Then lay down, &c. He hunted in the hamlet, and he hunted in the crowd, For he wanted but a certain kind of game; Not the great, or the rich, or the haughty, or the proud.

Not the cronies, or the pets of fame. Then lay down, &c. He drew his bow at random, yet he always hit his mark, (How it was I shall surely never know:) Through the eye, or the ear, or the lies, to the heart

I have spent, also, for cigars and tobacco, the trifle of thirty-one cents; and for a paper-folder a quarter. And in cakes and candies for the children I may have spent, may be, a shilling. Let me see how much all these amount to.

The items were soon summed up, and the product was two dollars and nearly a half "That, you see, reduces it to five dollars and a half," said Mrs. Hall.

"So it does," remarked the husband. "How money does slip through one's fingers! I would not have believed it. But where is the balance? Where are the five dollars and a half? even that

Mr. Hall thought for a moment, and then his thumb and finger gave a sharp crack, and he exclaimed-

By extra exertions, and a system of almost pinching economy, Mrs. Hall managed, during the econd quarter, to pay the rent and a few small pills, and got through without asking her husand for a cent more; so that when the salary ecame due again, she had a much larger sum to start with.
